

# [ Urethane fingers

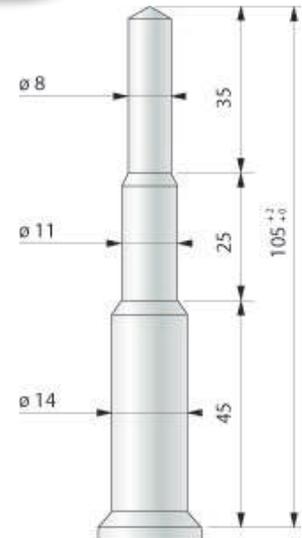

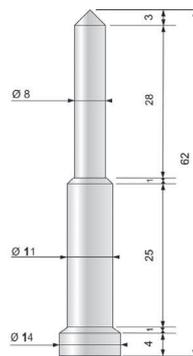

Rods may be used to carry, dry or wash fragile fruits or vegetables.

- Free positioning : in circle or longitudinally
- The height can be adjusted
- Individual HF- welding which ensures precise and strong bonding

### Urethane fingers guarantee :

- A good evacuation of the liquids on the belt
- A good flexibility at the contact of fragile products
- A very good cold, tear and mechanical resistance

Type	Height (mm)	Material	Colour	Hardness (ShA)	Min. pulley Ø (mm)	Axis (mm)	Pitch (mm)
D105PURB	105	PU	White	70	90	25 or 35	45
D60PURB	60	PU	White	70	80	25	45

Welding only on TPU top cover, directly on the belt.

**Specific needs: please inquire.**
